Seqirus Differentiated Flu Vaccines

- **FLUCELVAX QUADRIVALENT** is **NOW APPROVED FOR PATIENTS 6 MONTHS AND OLDER**. Available in multi-dose vials and pre-filled syringes. Made with modern cell culture-based technology that eliminates the need for antibiotics or eggs in manufacturing. It is the **FIRST** and **ONLY** quadrivalent flu vaccine made with cell culture technology.
- **AFLURIA QUADRIVALENT** is an influenza vaccine for individuals 6 months and older produced using the traditional egg-based manufacturing process.
- **FLUAD** is approved for use in patients aged 65+ years and is available in pre-filled syringes, containing an immune-enhancing adjuvant proven to elicit a strong immune response to the flu in adults 65 and older. The **FIRST** and **ONLY** adjuvanted flu vaccine for adults 65 and older.
