FluMist by AstraZeneca

- **FLUMIST QUADRAVALENT** is an intranasal influenza vaccine. It is the ONLY nasal spray flu vaccine available for eligible patients ages 2-49 years old.
- FluMist starts working where the flu typically enters the body: the nose
 - Patients 9 years of age and older need one dose of FluMist Quadrivalent each year
 - Patients 2 through 8 years old may need 2 doses of FluMist Quadrivalent, depending on their history of previous influenza vaccination, determined by your healthcare provider.
